The Chemical Age

Index to Volume XLIII. July to December, 1940

A

Absorption of Water by Plastics, 68
Absorption or Scrubbing Towers, 239
Acrylonitrile Production, 140
Adipic Acid, 221
Alcohols, New Commercial, 147
Alumina, Indian Imports of, 158
Aluminium Alloys, Metal Coatings On, 54
America, Plastics in, 263
America, Solvent Recovery in, 29
A.M. Inst. Chem. E. Examination, 198
Analysis of Coal and Coke, 219
Annual Meeting of Benn Brothers, Ltd., 70
Antifreeze Liquids, 24
Antiseptic from Mould, 262
Arsenic Determination, 276
Association of British Chemical Manufacturers, 195
Atmosphere Pollution, 168
Australian Chemical News, 279
Autoclaves, Factory Exemption of, 111
Automatic Still, Small, 23

AUTHORS—

Arend, A. G., Coke for Copper Blast Furnaces, 11; Refining Scrap Copper, 161
Butcher, C. H., Indicators and Recorders, 143
Creevey, John, Notes from Works Safety Jottings, 31, 81, 134, 197, 229, 290
Davies, J. G., Industrial Chemicals in Cane Sugar Manufacture, 21; Downie, C. C., Reclaiming Nickel Anodes by Welding, 59; The Litharge Problem, 299
Foxwell, G. E., Physical and Chemical Treatment of Solid Fuel, 181
Howat, D. D., Xanthates in Froth-Flotation Concentration, 89; Flash-Roasting of Sulphides, 153; Removal and Recovery of Sulphur from Smelter Gases, 249, 259, 273
Light, Louis, Organic Phosphates in Industry, 55; Polymers from Olefines, 240; Benzyl Cellulose Manufacture, 291
Neurath, Frederic, Zinc Sheet, 113; Bleaching Earth—Natural and Activated, 287
Pryce, A. C. H., Absorption or Scrubbing Towers, 239
Ranshaw, G. S., Textile Uses of Titanium Compounds, 79; Textile Processing Machinery, 139; New Applications for Pyridine, 193; Two Useful Intermediates, 227; Organic Catalysts, 297.
Schofield, M., War-time Charcoal Burning, 3; Seymour, H., Explosive Risks in "Empty" Vessels, 230; Special Correspondents, Domestic Charcoal Production, 67, 94; Lignite Development in Devon, 97, 109
Williams, A. E., Ozone in the Chemical Industry, 131; Synthetic Rubber in the Chemical Industries, 205

B

Basalt as Steel Substitute, 220
Beilby Memorial Awards, 69
Benn Brothers, Ltd., Annual Meeting of, 70
Benzyl Cellulose Manufacture 291
Bieugenol, Formation of, 173
Blast Furnace Slag, 186
Bleaching Earth—Natural and Activated, 287

BOOK REVIEWS—

Advanced Readings in Chemical and Technical German (J. T. Fotos and R. Norris Shreve), 242
Bibliography of Spectrochemical Analysis (D. M. Smith), 298
Chambers's Technical Dictionary (Ed. C. F. Tweney and L. E. C. Hughes), 72; Chemical Calculations (J. S. Long and H. V. Anderson), 99; Chemical Constitution

Book Reviews—*continued.*

of the Natural Fats, The (T. P. Hilditch), 72; Chemical Publications, 2nd Edit. (M. G. Mellon), 125; Chemistry, Life and Civilisation (Hubert T. S. Britton), 125; Conversion of Petroleum (A. N. Sachanen), 172
Elementary Laboratory Experiments in Organic Chemistry (Roger Adams and John R. Johnson), 172
Gadd's Synopsis of the British Pharmacopœia (13th Edit.), 72
Handbook of Chemical Microscopy, Vol. II (E. M. Chamot and C. W. Mason), 242
Introduction to Carbohydrate Biochemistry (D. J. Bell), 99; Introduction to Chemistry, An (A. C. Cavell): Part I, Inorganic Chemistry, 34; Parts II and III, Physical and Organic Chemistry, 72
Manufacture of Compressed Yeast, The (F. G. Walter), 99; Methane, its Production and Utilisation (J. P. Lawrie), 233
Organic Syntheses, Vol. 20 (Ed. Charles F. H. Allen), 242
Physical Constants of Hydrocarbons, Vol. II (Gustav Egloff), 72; Printing Inks: Their Chemistry and Technology (Carleton Ellis), 99; Physical Organic Chemistry (Louis P. Hammett), 149
Quantitative Analysis (Harold Simmons Booth and Vivian Richard Damerell), 149
Starch and its Derivatives (J. A. Radley), 72; Supplement to the 22nd Ed. of the U.S. Dispensatory (Horatio C. Wood, Jr.), 298; Survey of Insecticide Materials of Vegetable Origin, A (Edited by H. J. Holman), 34
Technical Methods of Chemical Analysis, 2nd Ed., Vol. IV (Ed. Charles A. Keane and P. C. L. Thorne), 110; Thorpe's Dictionary of Applied Chemistry, 4th Ed., Vol. IV (Ed. Sir Jocelyn Thorpe and M. A. Whiteley), 34; Tools of the Chemist, The (Ernest Child), 34; Transactions of the Institute of Chemical Engineers, Vol. 17, 1939 (Institute of Chemical Engineers), 34
Why Smash Atoms? (Arthur K. Solomon), 99

British Association of Chemists, 122, 269
British Columbia, Mercury in, 242
British Organic Fertilisers, 6
British Rheologists' Club, 186, 240
British Standard Specifications, 10

C

Caffeine Shortage, Meeting the, 288
Cane Sugar Manufacture, Industrial Chemicals in, 21
Carbon Black in Cement Making, 231
Carbon Steel Corrosion, 184
Carpenter, Sir Harold, 133
Castor Oil, Chemicals from, 71
Cellulose Dimethyl Ether, 101
Cellulose from Resinous Wood, 208
Cellulose Glycollic Acid, 220
Cement Making, Carbon Black in, 231
Ceric Sulphate as a Reagent, 262
Cerulein Dye Baths, 112
Charcoal-Burning, War-time, 3
Charcoal Kilns, Portable, 158
Charcoal Production, Domestic, 67, 94
Chemical Compounds as Fluxes, 187
Chemical Constants of Lac, 241
Chemical Cotton in India, 6
Chemical Export Enterprise, 158
Chemical Manufacturers' Directory, 57
Chemical Matters in Parliament, 6, 23, 56, 80, 102, 183, 207, 252, 278, 291, 299
Chemical Shortage in France, 186
Chemicals from Castor Oil, 71
Coal and Coke, Analysis of, 219
Coal Seams, Examination of, 279
CO and H. Direct Synthesis of, 101
Colouring Material from India, 241

Petroleum Chemistry Symposium, 123
Petroleum Toluol for National Defence, 121
Phosphate Film for Food Containers, 55
Physical and Chemical Treatment of Solid Fuel, 181
Plastic Food-Containers, 69
Plastics, Absorption of Water by, 68
Plastics in America, 263
Polymers from Olefines, 240
Polyvinyl Chloride Research, 120
Portable Charcoal Kilns, 158
Potash Situation, The, and the U.S.A., 35
Preparation of Drying Oils, 185
Producer-Gas Vehicle, New, 158
Psychology, Industrial, 301
Purchase Tax, 111
Purchase Tax Adjustment, 243
Purchase Tax Arrangement, 208
Purchase Tax, Start of the, 173
Pyridine, New Applications for, 193

R v. 43 July-Dec. 1940

R

Rayon Export Arrangements, 238
Reactions to Science, 95
Removal of Silica from Water, 217
Rotproofing of Sandbags, 277
Royal Society of Arts, 221
Rubber Substitute, A New, 172
Rubber, Synthetic, in the Chemical Industries, 205

S

Safety Glass, New, 127
Sandbags, Rotproofing of, 277
Silica, Removal of, from Water, 217
Soaps and Saponifying Agents, 32
Society of Chemical Industry, 19
Softening Point of Glass, 252
Solid Fuel, Physical and Chemical Treatment of, 181
Solvent Recovery in America, 29
South Africa, Chemical Future of, 152
South Africa, Chemicals in, 69
Static Charge on Chemical Glassware, 168
Steiner Viscometers, 142
Styrene Manufacture, 82
Substitutes for Copper Salts, 73
Sulphides, Flash-Roasting of, 155
Sulphite Cellulose Process, The, 231
Sulphur from Smelter Gases, Removal and Recovery of, 249, 259, 273
Superphosphate, Egyptian, 108
Synthesis of CO and H, Direct, 101
Synthetic Rubber in the Chemical Industries, 205
Synthetic Wax, New, 276

T

Textile Processing Accessories, New, 171
Textile Processing Machinery, 139
Textile Uses of Titanium Compounds, 79
Titanium Compounds, Textile Uses of, 79
Toxicology, Industrial, 5
Tung Oil, Gelation of, 112

U

U.S.A., The Potash Situation and the 35
U.S. Export Licences, 69

V

Ventilation in the Black-out, 6
Victory Celebrations, Our, 154
Vitamins and Plant Growth, 243

W

War Damage, 241
Waste Materials, Salvaging, 277
Welding Progress, 126
Works Safety Jottings, Notes from, 31, 81, 134, 197, 229, 290
Workmen's Compensation Act, 1940, The, 170

X

Xanthates in Froth-Flotation Concentration, 89

INDEX TO METALLURGICAL SECTION

A

Aircraft Metals, Corrosion of, 119
Alloys, Corrosion-Resisting, 114
Alloys, Magnetic, 114
Alloys, New Standards for, 268
Aluminium Alloy in the Chemical Industry, 62
Aluminium and its Alloys, 210
Aluminium, Swiss, 164

B

Belgometal, S. A., 212
Binders for Coating Mixtures, 162

C

Canada, Export of Metals from, 210
Chromium Coatings, Measuring, 115
Coke for Copper Blast Furnaces, 11
Copper, Refining Scrap, 161
Copper Alloys in Oil Refining, 212
Copper Blast Furnaces, Coke for, 11
Copper-Smelting in U.S.S.R., 114
Corrosion of Aircraft Metals, 115
Corrosion Resisting Alloys, 114

D

Duralumin Alloys, 268

E

Estimation of Hydrogen in Steel, 209, 265
Export of Metals from Canada, 210

F

Fluxes for Soldering, 60

G

German Zinc Resources, 267
Germany, Vanadium in, 268

H

Hydrogen in Steel, Estimation of, 209 265

I

India, Iron and Steel from, 115
Iron and Steel Control, 12

J

Japanese Iron and Steel, 60

L

Lead Products, Smelting, 62

M

Magnesium Industry in 1939, U.S.A., 12
Magnetic Alloys, 114
Manganese Development in U.S., 164
Mercury Output, U.S., 115
Metallurgical Matters in Parliament, 267
Minerals of North Borneo, 115
Molybdenum in 1939, U.S.A., 12

N

Nickel Anodes, Reclaiming, by Welding, 59
Nickel Deposit, New, 60
North Borneo, Minerals of, 115

O

Oil Refining, Copper Alloys in, 212

P

Parliament, Metallurgical Matters in, 267
Pickling Process, A New, 163

R

Rare Metals in Industry, 163
Reclaiming Nickel Anodes by Welding, 59
Refining Scrap Copper, 161

S

Scrap Copper, Refining, 161
Smelting Lead Products, 62
South Australian Metals, 211
Spectroscopic Analysis, 115
Standards for Alloys, New, 268
Steel, Estimation of Hydrogen in, 209, 265
Steelmaking Process, New, 62
Steelmaking, Progress of Modern, 162
Swiss Aluminium, 164

T

Tantalite, White, 114
Tantalum Minerals, 210
Tellurium Lead, 164
Tinning Developments, 211

U

U.S. Magnesium Industry in 1939, 12
U.S. Manganese Development, 164
U.S. Mercury Output, 115
U.S. Molybdenum in 1939, 12
U.S.S.R., Copper Smelting in, 114

V

Vanadium in Germany, 268

W

Wolfram, Price of, 114

Z

Zinc Resources, German, 267
Zinc Sheet, 113

Printed in Great Britain by THE PRESS AT COOMBELANDS LTD., London and Addlestone, and Published by BENN BROTHERS LTD., at Bouverie House, 154, Fleet Street, E.C.4.
